TREES

that will grow large

Silver Maple

Acer saccharinum. Deciduous. 50 ft. Rapid growing tree that will give welcome shade quickly. Large, cool green leaves, bright green above and silvery beneath. 5-gal., \$3.50.

Silk Tree

Grevillea robusta. Evergreen. 80 ft. A hardy, tall, slender growing tree with dainty fern-like foliage and racemes of orange blossoms. Requires little care or water. 5-gal., \$3.25.

Sycamore

Platanus acerifolia. London Plane Tree. Deciduous. 60 ft. A tall, erect, wide spreading tree clothed with large rich green blight resistant leaves. Silvery green bark. Grows rapidly giving a maximum of shade. 6-gal., \$6.75.

California Live Oaks

Quercus agrifolia. Evergreen. 40 ft. A familiar picturesque feature of the California landscape. With reasonable care and watering its growth is comparable to that of other evergreen trees. 5-gal., \$3.50.

Elms

Ulmus americana. Deciduous. 60 ft. The American Elm so familiar to Easterners. One of the best selections for giving shade over a large area quickly. Large, heavily veined leaves of deep green. 5-gal., \$3.50.

Ulmus parvifolia (pumila). Deciduous. 50 ft. Chinese Elm. Extremely hardy as to soil or weather conditions. Rapid growing, symmetrical tree, offering cool green shade. Most popular of deciduous trees. Dainty green, heavily veined leaves. 5-gal., \$3.50.

Smaller Growing

TREES

White Birch

Betula alba. Deciduous. 30 ft. Most artistic of trees, planted either in groups or alone with their white bark gleaming through the leaves. Even when the leaves are gone, the white trunks are attractive. 5-gal., \$3.75.

Betula pendula Cutleaf. Deciduous. 30 ft. The dainty Cutleaf Birch, most graceful with its pendulous branches, finely cut foliage and white bark. Not quite so rapid a grower as the above variety but well worth waiting for. 5-gal., \$4.75.

American Sweet Gum

Liquidambar styraciflua. Deciduous. 35 ft. For the showiest of autumn colors, red, gold and maroon, on maple-like leaves, plant this pyramidal tree in parkings, as a specimen in the lawn or at the back of the shrub border. 5-gal., \$3.50.

Brazilian Pepper

Schinus terebinthifolia. Evergreen. 15 ft. An outstanding choice for a patio tree, with its modest height and spreading habit, glistening foliage and clusters of bright pink berries. Especially good for protecting the shady garden of Azaleas, Fuchsias, Begonias and Ferns. Grows rapidly. 5-gal., \$3.50.

Evergreen Elm

Ulmus parvifolia Evergreen. 20 ft. Most graceful of trees with its drooping branches clothed with small leaves of cool deep green. Very effective specimen tree for the outdoor living room. 5-gal., \$4.00.

**These Trees and many more described completely in our
Illustrated 64-page Catalogue.**

TREES

that Flower

The Acacias

Acacia baileyana. Evergreen. 25 ft. Symmetrical rounded tree with blue-green foliage covered in winter by a cloud of soft yellow balls of bloom. 5-gal., \$3.50.

Acacia podalyriaefolia. Evergreen. 12 ft. Loveliest of the Acacias with silvery white glistening leaves and abundant yellow winter bloom. 5-gal., \$3.50.

Flowering Eucalyptus

Eucalyptus ficifolia. Evergreen. 25 ft. Very showy with its huge panicles of scarlet bloom during the summer. A hardy, spreading tree. 5-gal., \$3.25.

Eucalyptus sideroxylon. Evergreen. 35 ft. Slender, gray foliaged trees, planted either singly or in groups, are attractive the year around. Many pink bloom in summer. 5-gal., \$3.25.

Jacaranda

Jacaranda acutifolia. Evergreen. 35 ft. Graceful tree with fern-like foliage and in June great panicles of blue flowers that seem to form a haze over the tree. 5-gal., \$3.50.

Tulip Tree

Liriodendron tulipifera. Deciduous. 60-ft. Tall, straight tree, symmetrically branched, covered with large, soft green leaves and in summer showing large yellow flowers. 5-gal., \$3.75.

Southern Magnolia

Magnolia grandiflora. Evergreen. 50 ft. Stately tree with large polished leaves and immense, fragrant saucer-shaped white bloom in summer. 5-gal., \$3.50.

S H A D E

With the arrival of summer most of us start thinking of those HOT days ahead and consider ways to keep cool. This brings to mind Shade Trees.

This folder presents just a few of the varieties of trees available for shade and for decorative purposes. We have many others not listed.

In selecting and planting trees there are many things to consider. If you want shade only in summer, a deciduous tree should be chosen. Careful consideration should be given to the location so that shade will fall in the desired places. Some trees are excellent for screening objectionable views; others for parkways or for ornamental specimens. It pays to give thought to your selections.

Of necessity our descriptions of varieties are limited. We invite you to come to the nursery, ask all the questions you may have about trees and compare the relative merits of all the varieties. Our aim will be to find the right tree for your particular spot.
